

Comparison Chart

Temporary Bathroom / Toilet

This list provides a starting point for assessors who are looking at equipment options from a range of suppliers.

This list includes some options requested through Enable New Zealand and does not include all options available in NZ. Information is current as of the date shown in the footer and subject to change.

Considerations for selection of a temporary shower and/or toilet:

- All orders should be submitted as part of the ACC Housing Modifications service (www.acc.co.nz/assets/contracts/mres-og.pdf)
- All potential options should be considered and documented on a Housing Modification Assessment report (ACC257 or ACC263). For example, natural supports, short term solutions, adaptive equipment
- Options presented in this list are not suitable as permanent solutions
- When considering options where maintenance is required, ensure the client/family have the capacity to do this. For example, refilling gas bottles, emptying toilet cassette etc.
- Both hire and purchase options should be explored for cost comparison. It may be a better value for money to purchase rather than hire a temporary bathroom for medium-term use, as a purchased unit can be reissued. For example, extensive permanent modifications may take more than 18months to complete, so purchase may be more cost effective overall.

Supplier	Model	Geographical cover	Hire	Purchase	Reissue	Specifications	Practical considerations
Louna Bathrooms https://www.louna.org.nz/	Louna	All North Island	Yes	Yes	No	<ul style="list-style-type: none"> • 3mL x 1.8mW, 2.4mH (External) • Includes a 2m ramp 	<ul style="list-style-type: none"> • Contains accessible shower, toilet & basin • Addresses shorter-term needs • Towable • Fits into smaller spaces - can be hiab/craned into position if required • Cost includes 6-weekly service of unit i.e. macerator pump, gas bottles filled

							<ul style="list-style-type: none"> • Need access to gully trap & outside tap • Power from extension lead or caravan plug outside home • Gas for water heating
