

Subcontractor manual

Equipment repairs, maintenance and modification services

Operating rules and processes for Enable New Zealand equipment funded by:

- Ministry of Social Development Disability Support Services group, and
- Accident Compensation Corporation.

Version control

Date of change	Changes made	Version
13 June 2025	Removed 'draft' from footer and removed freight and outwork markup percentage in alignment with contract.	2
17 June 2025	Add outwork percentage and align payment process with contract	3

About us

Enable New Zealand is a wholly-owned Crown entity subsidiary of Health New Zealand | Te Whatu Ora.

We are New Zealand's largest provider of disability and rehabilitation equipment, hearing and spectacle subsidies, and vehicle and housing modifications.

We supply, repair and maintain disability and rehabilitation equipment that is owned and funded by:

- Ministry of Social Development (**MSD**) through its business group Disability Support Services (**DSS**), and
- Accident Compensation Corporation (**ACC**).

We are contracted to provide our equipment services:

- nationwide for ACC
- south of the Bombay Hills for DSS
- Monday to Friday (except statutory holidays) during normal business hours, 52 weeks a year.

To our subcontractors

About this manual

This manual is for our subcontracted suppliers of equipment repair and maintenance services.

The manual explains how to work with us when providing the services set out in your Contract for Goods and Services. The processes and rules described are based on contracts with our equipment funders.

We hope the information provided in this manual helps forge a successful working relationship that benefits subcontractors and Enable New Zealand.

Please make your staff aware of the content of this manual.

Our commitment to you

1. We will clearly communicate any changes to work practices.
2. We will provide administrative support and guidance, including requests for service user information and asset information.
3. We will issue and approve purchase orders without unnecessary delays.
4. We will pay approved invoices within the time period specified in your agreement.
5. We will provide you with login details to access the Asset Database for DSS equipment, and ACC equipment, where available. We will update the database monthly, and advise you of any changes or improvements.

Your commitment to us

1. You will provide your services in line with:
 - this manual
 - our Subcontractor Code of Conduct (Appendix 2), and
 - your Contract for Goods and Services.
2. You will find a suitably experienced stand-in subcontractor during times when you are unavailable, such as during holidays or illness. You will contact us for advice if needed.

3. If we ask, you will give Enable New Zealand or our agents access to your records and premises for audits of quality, service delivery, and compliance. You will provide help and facilities to support these audits.
4. You will inform us immediately if any issue arises about services that may have media or public interest. You will not make statements to the media about Enable New Zealand, our funders, or other services.

Contract management

Performance reviews

We will meet with you six-monthly to review your performance against your Contract for Goods and Services, and our Code of Conduct and to discuss any issues.

We will carry out audits as needed.

We must be able to assure ACC and MSD that:

- our repair and maintenance service is being carried out to a high standard, and
- their funding is being properly managed and spent.

Key performance indicators (KPIs)

- No more than three general complaints within a six-month period.
- Ensure that 95% of invoices comply with the approved purchase order parameters.
- 100% of Enable New Zealand subcontractors operate ethically.
- 100% of job outcomes are carried out in the most cost-effective way.
- 95% of jobs completed within two visits.
- 95% of jobs are acknowledged within one day of notification.

Guidelines applying to all work

Key messages

1. Before working on an item ensure the equipment has an Enable New Zealand asset label and number; check the service user details match.
2. Do not open or work on equipment still under warranty. This will invalidate the warranty.
3. Notify us immediately if an item has been damaged during delivery to your premises.
4. Do not repair low-value items.
5. If unsure whether the item is economic to repair, contact us for advice.
6. Do not modify Band 1 items.
7. Do not work on supplier trial equipment or supplier-owned equipment.
8. Refurbish items only as authorised.
9. Modify equipment only if you receive approval and/or a purchase order.

Service areas and timeframes

You will provide your services as follows:

- Monday to Friday (except statutory holidays)
- During standard business hours
- 52 weeks a year.

Equipment repair timeframes

- Complete jobs within two visits.
- Acknowledge a job request within one day of notification.
- Contact the service user within 24 hours to arrange repairs or soon as practicable; and notify Enable NZ via convenient method (this could be via a text message, email or phone call).

Urgent call-outs or after-hours services

ACC and DSS do not contract us to provide an emergency repair service to service users. So, providing call-out services needs careful consideration.

- Determine if the person's health or safety is at risk:
- If at risk, a call-out may be needed.
- Dial 111 in emergency situations.
- If not at risk, book a call-back during normal business hours. Help the caller by discussing possible solutions in the meantime.

Subcontractor admin requests

When contacting us about a job, always include these details:

- NHI number for any DSS related issue
- Claim Number for any ACC related issue
- Name of service user
- Equipment asset number
- Make/model/serial number of equipment
- Other details about the job.

Working with equipment assessors

Assessors decide who is eligible for DSS or ACC funded equipment, and what equipment is suitable for the person's needs.

When you get a work request from an assessor, please liaise with them about:

- any specifications for the work required
- any appointments the assessor needs to attend with the service user
- returning the equipment to the person, where relevant.

See the specific guidelines for more information.

Subcontractor technician requests

Assessors can request a subcontractor technician to:

- help set up or adjust complex or heavy equipment
- repair equipment

- confirm if an item is beyond economic repair, or should be replaced
- service equipment
- fit accessories
- modify equipment, where approved
- attend an outreach clinic with them.

Request are made using the Subcontractor Technician Request Form ENAE2007 (**technician request**).

Checking asset labels – equipment ownership

Important note

Only work on equipment that:

- has an asset label clearly showing the asset number, and
- can be linked to the person whose equipment needs repair or maintenance.

Procedure – Missing or unreadable asset label/number

1. Confirm ownership (if uncertain please contact us)
2. Apply new asset label
3. Email Equipment Subcontractor Liaison Team to advise of the new asset number

Procedure – Requesting new bulk asset abels

Email: asset-labels@enable.co.nz

Subject: New asset labels

Body of email:

- Requester's name and address
- Address where labels are to be sent

Procuring parts and spares

Procure all parts and spares needed for any repairs and maintenance. Ensure the parts are of high quality. Where required, please purchase parts off suppliers to ensure compliance with warranty timeframes and contracted pricing.

Batteries, tyres, and castors

Buy replacement batteries and tyres from our named suppliers. See Appendix 3 Contracted Parts Suppliers. These prices are the most we will pay, plus 12.5%, to a maximum of \$150.00 per job.

If you do not source parts from our named suppliers, we will return your invoices for you to re-send at contract prices.

Payment for parts

You are responsible for paying for:

- all parts (except any we supply)
- any contractors you outsource.

Record keeping

You must keep copies of job cards and invoices and make them available to us if asked.

- Keep completed job cards for 3 years for audit purposes.
- Keep copies of invoices for parts or third party costs.

Check warranty status

Important note

Do not do any work on equipment under warranty. This may result in:

- the warranty being voided, and
- you having to pay for the work, and any other costs that would have been covered by the supplier.
- If you are unsure of the warranty status, please contact us.

If no warranty applies

Proceed with the work, in line with our guidelines.

If warranty applies

- **For repairs:** Organise any warranty work directly with the equipment supplier.
- **For modifications or customisation:** discuss with the equipment supplier or us.

Spot audits

If a spot audit picks up any warranty work charged to Enable New Zealand, we will ask you for a credit.

Reporting neglected or misused equipment

If you believe equipment has been neglected, abused or misused, inform us immediately. We will inform the funder about the condition of the equipment.

Do not start work on these items until we give you the go-ahead.

Infection control and cleaning

Do not compromise your health or safety. If the environment is unsanitary or poses a risk, you have the right to refuse the job and must report it to us.

Infection control standards

Always take necessary safety measures when visiting a service user's home, such as wearing appropriate clothing to avoid contamination.

Maintain acceptable infection control standards for:

- handling equipment
- the site where repairs are carried out.

Contact us for our protocol and list of standard products.

See Appendix 4 Disinfection of equipment

Equipment exposed to MRSA

- **Option 1:** Wash the item thoroughly and put out in the sun to dry, or
- **Option 2:** Apply a 1% chlorine-based liquid, leave for 2 minutes, and wash off. Note: Janola is 5% and would need to be diluted.

Equipment cleaning – service user responsibility

ACC and DSS do not fund equipment cleaning – it is the service user's responsibility. Items don't need to be spotlessly clean. However, in some cases you may need to ask the service user to clean the item before you can work on it.

Equipment damaged in transit – Notify us ASAP

Important note

If ACC or DSS equipment is delivered to your premises and you believe it has been damaged during delivery, please notify us straightaway.

We have 7 days to notify our insurers and make a claim, if our policy allows.

Contact the Service Manager, Equipment to discuss the problem and get advice on what to do.

Job cards, invoicing and costs

Benchmark prices apply 1 July 2025

Price benchmarks will apply from 1 July 2025 for most jobs. See Appendix 3 for details.

Job cards

Complete a job card for all jobs invoiced back to Enable New Zealand. (Appendix 4.)

When charging us for parts, you must list on the Job Card:

- all parts sourced from a supplier and the prices (the original itemised quote with pricing, should be made available to Enable New Zealand if required).
- any parts sourced from us.

Jobs under benchmark price: Job sheet & invoice

- Please invoice us monthly.
- Please send one invoice and job sheet per email
- Please include your invoice number in the subject line

Jobs over benchmark price: PO required

Apply for a purchase order (**PO**). We will assess the job and advise you of any other options, such as replacement or providing parts from our stock.

Procedure – ACC & DSS equipment PO applications

Email these documents:

- Completed job card ([Appendix 5](#))
- Supplier quotes
- Photos

Please include the service user name and NHI or claim number in the subject line

ACC: accrepairs@enable.co.nz

DSS: mohrepairs@enable.co.nz

Procedure – When approval and PO number received

- Complete the job.
- Create a unique invoice, including the:
 - PO number
 - completed job card
 - equipment asset number
 - costs for any parts or outwork.

Subcontractor costs

Charging for parts and outwork

Costs you incur for parts and outwork may be charged to Enable New Zealand as follows:

- Cost (excluding GST) plus 12.5%
- Up to \$150.00 (excluding GST) per job.

Refer to the individual Supply Agreement with Enable New Zealand regarding rates

Exception

Do not apply the 12.5% charge for:

- testing & tagging
- consumables, or
- freight.

Claiming mileage over 10km

- You can claim \$0.64 per kilometre (**km**) for each trip over 10 km.
- We do not pay mileage allowance for the first 10km of each trip.
- Group your tasks by location to minimise travel time and costs.
- On the job card, only record travel over 10km.

Invoice before last working day of month

To get on to our payment schedule in time, please submit your invoices on or before the 19th calendar day of the month, ENZ will pay that invoice by the 20th calendar day of that month (or, if the 20th calendar day of the month is not a Business Day, the next Business Day. Your invoice and purchase order must match for it to be paid successfully.

- Please include your invoice number in the subject line and email to:
 - ACC job sheet & invoice: accrepairs@enable.co.nz
 - DSS job sheet & invoice: mohrepairs@enable.co.nz
 - Invoices with a PO number: finance.invoices@enable.co.nz
 - Invoice queries: invoicequeries@enable.co.nz
 - Outreach clinic invoices: outreach@enable.co.nz

Equipment repair and maintenance guidelines

Before you start

Remember to check the:

- asset database – make sure it is ACC or DSS equipment and that the asset is for the right person
- warranty – do not open the equipment or start work if under warranty (if uncertain please contact us to confirm).

Notify us straightaway if the equipment is or has been:

- neglected, misused or damaged beyond normal wear and tear
- damaged during delivery to your premises.

Equipment repairs

The job

Fixing equipment that is damaged, broken or worn out, where repair is cost-effective and appropriate.

Who can request

Service users, assessors, carers, family or whānau, Enable New Zealand.

In scope

Damaged, worn, or broken items of:

- DSS Band 2 equipment and Band 3 equipment
- ACC standard equipment and complex equipment.

Out of scope

- DSS Band 1 equipment and ACC Simple List equipment. (Assessor will need to request a replacement)
- Low-value equipment.
- Equipment under warranty (see warranties section).
- Equipment beyond economic repair.

Procedures

- Contact the service user, assess the work and do a quote for the repair.
Note: Inspect equipment for any other repairs needed.
 - **If under the benchmark:** Go ahead with the repair.
 - **If over the benchmark:** contact Enable New Zealand **prior** to any work commencing
 - **If equipment has been neglected, abused or misused:** contact us for advice
 - **If the same repair on an item is needed again within a month:** contact us for advice and approval.
- Record work details on job card or job sheet.
- Check equipment operates correctly after repair and before returning it to the service user.
- You can outsource repair work to suitably qualified persons, where appropriate.

Specialised equipment repairs

The job

Repairing specialised equipment where Enable New Zealand has contracted suppliers; or where equipment is beyond your scope of work/service.

Who can request

Assessors, service users, career, family/whānau, Enable New Zealand

In scope

Damaged, broken, or worn ACC or DSS:

- communication assistive technology (CAT)
- hearing assistive technology (HAT).

Out of scope

Equipment under warranty (see warranties section).

Household or recreational equipment.

Procedures

- Refer equipment to a specialised supplier as set out in the table below.
- Coordinate and manage the repair with the equipment supplier.
- Act as a liaison between the supplier and the customer.
- Pay any companies used for outwork and invoice us for the cost
- Arrange for the equipment to be replaced if beyond economic repair.

List of specialist equipment suppliers

Equipment	Supplier	Notes
HAT	Brooks (NZ) Reid Technology Silent Communications NZ Ltd Harkness & Young	Refer to the original supplier
CAT	Talk Link Trust	
Computer equipment	Local repair agent, where feasible	

Housing equipment repairs

The job

Repairs to equipment installed as part of a housing modification. Use where Enable New Zealand has contracted suppliers; or where these repairs are beyond your scope of work/service.

Who can request

Service users, assessors, carers, family or whānau, Enable New Zealand.

In scope

ACC and DSS low-rise platform lifts; motors for ceiling hoists.

Out of scope

Tracks for ACC or DSS ceiling hoists installed from 1 April 2010.

Procedure – ceiling hoist tracks

- Before working on ceiling hoist tracks: Contact us to check the installation date by emailing: enable@enable.co.nz
- If out of scope: Advise the service user that they are responsible for the repairs and maintenance of these items. (Tracks are considered to be part of the house and not removable equipment.)

Annual service

The job

Checking complex equipment is still safe and works properly.

Who can request

Service users, care facilities, Enable New Zealand

In scope

Hoists, pressure care mattresses, power wheelchairs, lifts, electric beds.

Out of scope

- Equipment beyond economic repair
- Equipment under warranty.

Procedure

When to service equipment:

- In line with the scheduled maintenance programme
- According to the manufacturer's equipment product manual
- When equipment under repair is almost due for an annual service.

Notes

- To reduce travel costs, check for any other items that need servicing around the same time.
- Include an electrical test and tag, where appropriate.

Test & tag

The job

Checking that electrically operated equipment is safe to use and meets electrical safety standards.

Who can request

Service users, care facilities, Enable New Zealand

In scope

ACC and DSS electric beds., pressure care mattresses, battery chargers attached to equipment.

Out of scope

ACC and DSS equipment under warranty (see warranties section).

Household and recreational equipment.

Standards that apply

- AS/NZS 3551:2013 Management Programs for Medical Equipment
- AS/NZS 3760: 2010 'In-service safety inspection and testing of electrical equipment

Procedure

Test equipment:

- annually, in line with the relevant safety standards below.

- after any major repair to the electrical part of the equipment.
- after any repairs to equipment that connects to mains power.

Battery chargers with removable leads

Test the lead first, then test the complete unit.

Care facility bulk test & tags

- Check the asset label to confirm ACC or DSS equipment.
- Do any minor repairs needed at the same time.

Price per item

The price is \$15.00 (excluding GST) for testing and tagging one item.

One item includes both a lead and a charger body.

The price includes:

- your labour, so do not charge extra
- up to two tests for each item.

Equipment replacement (like-for-like, BER)

The job

Notifying the assessor or Enable New Zealand that equipment needs to be replaced with a like-for-like item because it is:

- broken, damaged or worn out, and
- beyond economic repair (**BER**).

Signs that equipment needs to be replaced

Equipment that is: old and well worn; needs frequent repairs; nearing the end of its useful life; a safety risk; parts no longer available in New Zealand; costs more to fix than to replace with a new item.

Who can request

Subcontractors, assessors, Enable New Zealand

In scope

- All DSS Band 1 equipment and ACC Simple List equipment where damaged or broken
- All ACC and DSS low-value equipment where damaged or broken

- DSS Band 2 and Band 3 equipment where BER
- ACC standard and complex equipment where BER.

Out of scope

To be confirmed as we are working with Funders to refine the scope of equipment. Please contact us if you have questions.

Procedures

Confirming BER

Contact us for advice, if needed.

DSS equipment replacement request

Complete the Replacement Equipment form (Appendix 7) and send email to the assessor and copy in: mohrepairs@enable.co.nz

ACC equipment replacement request

Complete the ACC Beyond Economic Repair form (Appendix 8) and send to accrepairs@enable.co.nz

Equipment write-offs

The job

Advising Enable New Zealand that equipment needs to be written off.

Who can write-off equipment

Assessors, subcontractors, Enable New Zealand staff

In scope

ACC and DSS equipment that is:

- beyond economic repair (BER)
- excessively rusty or corroded, structurally damaged or stress-damaged
- any equipment that is contaminated beyond being able to be easily cleaned and refurbished. obsolete (e.g., parts no longer available in New Zealand).

Out of scope

ACC and DSS equipment that can be de-contaminated and returned to stock.

Procedure

Advise Enable New Zealand to write-off the equipment. Include the reason and asset number of the equipment.

Disposal of equipment

The job

Sending equipment as waste to landfill; without identifiable asset or other labels on it. For further clarification, please contact Enable New Zealand

Who can request

Subcontractors, Enable New Zealand, assessors

In scope

ACC and DSS equipment that is beyond economic repair or has been written off.

Equipment modifications, seating systems, customisation

The job

Modifications: Fitting extra parts and accessories not supplied on the basic model.

Customisation: Permanently changing equipment to suit a person's needs. Any changes that include welding, drilling or permanent fixings.

Who can request

- EMS assessors accredited in wheeled mobility and postural management.
- ACC assessors

In scope

- DSS Band 2 and Band 3 equipment
- ACC standard and complex equipment
- ACC and DSS re-issue equipment, e.g., for trial
- ACC and DSS seating systems to be fitted to a reissue wheelchair
- ACC and DSS seating system and wheelchair from different suppliers.

Out of scope

- DSS Band 1 equipment
- ACC Simple List equipment
- Supplier-owned equipment
- Supplier trial equipment
- Seating system and wheelchair from the same supplier. (Supplier is responsible).

Important note:

We will not pay costs you incur for work on equipment returned in modified or less-than-new condition to the supplier.

Procedure

- An assessor will need to request a quote for the modification (from a suitably qualified subcontractor) which will be attached to the service request. When/if approved, the subcontractor will receive a copy of the approved service request and a purchase order.
- Raise any safety concerns about the modifications with the assessor.
- Check the equipment operates correctly before returning the equipment to the service user.
- The assessor must present when you test the modifications with the user.

Equipment set-up or adjustments

The job

Helping the assessor assemble or adjust equipment so it works properly for the service user. Set-ups are for equipment within 6 weeks of issue. Adjustments are carried out during the life of the equipment

Important note: Parts

- Set-up and adjustments include only the parts and accessories approved in the service request.
- If extra parts or accessories are needed, treat the job as a modification: Invoice separately from the set-up/adjustment.

Who can request

Assessors can request set-up and adjustments and must be present when the subcontractor is carrying out the job.

In scope

ACC or DSS complex or heavy equipment including:

- hoists
- profiling beds
- wheelchairs
- customised standing frames
- specialised pressure care equipment
- specialised communication devices
- customised seating systems.

Out of scope

- Warranty claims
- household and recreational equipment

Procedure

An assessor will need to request a quote/PO for setup of power wheelchairs or adjustments (from a suitably qualified subcontractor) which will be attached to the service request. When/if approved, the subcontractor will receive a copy of the approved service request and a purchase order.

Refurbishment of equipment

The job

To bring equipment back to 'as new' standard for re-issue to another person.

Note: Refurbishment is not part of the contract for goods and Services. However, sometimes we ask a subcontractor to refurbish an item for reissue in their service area.

Who can request

- Enable New Zealand repair technician
- Equipment assessor, with approval from Enable New Zealand.

In scope

Usually wheelchairs or other equipment as specified on purchase order.

Out of scope

Modifications or customisations (unless stated on the purchase order).

Procedure

- Purchase order and wheelchair script is required.
- Carry out refurbishment alongside the set-up for the new service user.

Price

The contracted hourly labour rate applies.

Wheelchair and seating outreach clinic attendances

The job

Attending a wheelchair and seating outreach clinic to provide technical assistance with fitting and adjustment of equipment.

Who can request

Enable New Zealand clinical advisor for EMS wheelchair and seating outreach service.

In scope

DSS equipment. Work as stated on service request

Out of scope

Doing any work without authority from an Enable New Zealand outreach advisor.

Procedure

You will receive an email request to attend a clinic, and a copy of the clinic timetable.

Invoicing

For clinic work: Invoice for labour and travel costs only. Send your invoice to outreach@enable.co.nz

For work outside of clinic: Invoice us following the usual process.

DSS equipment in care facilities

The job

Repair and maintenance of equipment DSS service users have taken into a care facility. Certain criteria must be met.

Criteria

- Equipment is in scope.
- Equipment is still in its lifetime and is not beyond economic repair.
- Equipment is still being used by the person it was prescribed to.

Who can request

Care facility staff, Enable New Zealand

In scope

- Mobility aids that are individually customised for the service user (e.g., walking frames, quad stick)
- Wheelchairs which have been individualised or customised (e.g., cushions and backrests) on a wheeled mobility base
- Lying supports
- Shower commode chairs which have been individualised or customised
- Dedicated communication devices (not including hearing aids).

Out of scope

- Equipment that doesn't meet the criteria.
- Communal aids and equipment that providers are responsible for, such as:
 - urinals, bedpans, commodes, raised toilet seats, shower toilet chairs, washbowls
 - walking frames, standard wheelchairs
 - pressure relief items, lifting aids, handrails
 - standard bariatric equipment
- hospital beds.
- Low-cost equipment such as walking sticks or personal hygiene items.

Procedures

If equipment is beyond economic repair, inform the facility manager.

Requests to relocate equipment

A service user may ask for their equipment to be dismantled and reassembled when they move. Funder contracts do not cover this service.

- Contact us for advice – Request a purchase order (PO).
- We will consult the funder for a decision.

Risk management

Workplace health and safety

- Comply with all workplace health and safety laws and regulations.
- Maintain a safe and healthy worksite.
- Manage, reduce or eliminate any health and safety risks for service users when their equipment is being repaired or serviced.

Asset protection

Adequately protect any Enable New Zealand information, assets, tools and materials provided. Return these promptly when asked.

Privacy and confidentiality

- Our privacy policy is in line with the District Health board and applies to all subcontractors. We expect you, and your staff, to be familiar with the policy.
- Comply with the provisions of the Privacy Act 2020 and Code as detailed in the Head Agreement.
- Ensure that all information about our services users is kept strictly confidential.

Children's worker safety checks

You must comply with the safety checking requirements of the Vulnerable Children Act 2014. These checks are:

- required if you provide services to (and communicate with) our service users under the age of 18

- referred to as a children's worker safety check.

Complete checks using the Health New Zealand | Te Whatu Ora approved service, CV Check.

<https://cvcheck.com/nz/te-whatu-ora-health-new-zealand/>

The Carriage of Goods Act – Insurance applies,

Appendix 1: Process flow charts

TBC

Appendix 2: Subcontractor code of conduct

As a subcontractor, you represent Enable New Zealand in the community. This means you must follow our rules and this subcontractor code of conduct. Please make sure your employees and any outworkers know these rules too.

Respect service users' disabilities and cultures

- Comply with the Code of Health and Disability Services Consumers Rights Regulation 1996.
- Treat our services users with respect and courtesy.
- Understand and respect the cultural backgrounds and disability-related needs of our service users.

Avoid inappropriate situations

- Never put yourself in a situation where you could be accused of inappropriate behaviour.
- Avoid being alone with a child or physically helping someone without another person present.

Ethical behaviour

- Be honest and trustworthy in your work, finances and behaviours.
- Avoid actions that involve dishonest or unethical behaviour for personal gain.
- Ensure all actions and decisions are open and can be accounted for, and maintain integrity in all dealings.

Professional services

- Work within the scope of your contract.
- Maintain the qualifications, skills, and capability needed to repair and maintain equipment to the required standards.
- Work with us, our suppliers, and other subcontractors to deliver responsive and reliable services without unnecessary delays.

- This equipment has been selected through formal tender processes to establish the best solution for Enable New Zealand and the Ministry of Health (MOH).
- In order for Enable New Zealand to comply with our contractual obligations, it is expected that Equipment Sub-Contractors will utilise these preferred products and the preferred suppliers for the purchase of such equipment on behalf of the MOH. This includes using the preferred supplier for similar products not listed.

Appendix 4: Benchmark prices

Type of Equipment	Benchmarked Rate (ex gst)
Power wheelchairs	\$2,000
Manual wheelchairs	\$1,600
Hoists	\$800
Beds	\$900
Complex bathing & toileting	\$2,300
Other	\$1,000

Equipment Repair Benchmark process as from 1 July 2025

Appendix 5: Job card & PO request form

ACC/DSS Job Card & Purchase Order Request Form

This form is to be completed by the Equipment Subcontractor for any repairs, minor modifications, or purchase order requests relating to ACC or DSS equipment managed by Enablr New Zealand.

Upon completion, please submit the form to the relevant email address:

ACC: accrepairs@enable.co.nz DSS: mohrepairs@enable.co.nz

Appendix 9: Definitions

Accessory – An off-the-shelf removable item that can be attached to a basic equipment item. See EMS definitions.

Adjustments – Changes made to equipment over the life of the item (after 6 weeks of issue).

Annual service – Scheduled maintenance in line with the manufacturer’s manual.

Annual Electrical Test and Tag – Testing & tagging of electrically operated equipment to meet NZ Standard ASS/NZS 3551:2012 or AS/NZS 3760: 2010.

Assessors – Allied health professionals approved by DSS and ACC to carry out assessments and recommend certain equipment items, depending on their qualifications. Include occupational therapists, physiotherapists, speech-language therapists, hearing and vision therapists, and specialist service coordinators.

Asset – An item of equipment we provide for ACC and DSS service users.

Asset number – A unique identification number assigned to an item of equipment. Used to trace items to ensure they are used effectively and maintained properly through their lifecycle. The asset number is printed on an asset label.

Asset label – A silver or white sticker applied to a piece of ACC or DSS equipment. It has the Enable New Zealand logo, and a unique asset number and bar code.

Asset database – Enable New Zealand database with basic information about equipment (assets) issued to DSS and ACC service users. Full name is ‘repair subcontractor asset database’.

Benchmark price – A standard price used as reference point in the market. Used as a guideline for pricing similar goods or services.

Beyond economic repair (BER) – Where the cost of repairing an item exceeds 70 per cent of its replacement value, making it more economical to replace the item rather than repair it.

Call-back – A situation where there is no immediate risk to the user and the work can wait until normal business hours. (Not to be confused with call-out).

Call-out – A situation where a subcontractor’s visit is required outside of normal business hours. (Not to be confused with call-back.)

Care facility – A rest home or hospital that provides skilled nursing care to patients or residents who need help with activities of daily living.

Communication assistive technology (CAT) – Equipment to help people communicate or control their environment. Examples: picture boards, speech generating devices, communication apps, eye tracking devices.

Customised equipment – Equipment uniquely adapted or designed to meet the individual needs of a person and where the customisation cannot be reversed. Any changes that include welding, drilling, or permanent fixing are considered customisation.

Contract for Goods and Services –

DSS – Disability Support Service, a business unit of the Ministry of Social Development.

Firstport – The official website providing disability information and advice.

<https://firstport.co.nz/>

EMS – Equipment and Modification Services. The DSS programme that funds equipment for eligible disabled people.

EMS equipment definitions – See definitions and examples of these commonly used terms: accessory; Band 1, Band 2, and Band 3 equipment; modifications and customisation.

[View Equipment and Modification Services definitions on DSS website](#)

Equipment – Re-usable aid that helps a person with daily living activities (ACC definition). Items are portable, free-standing and immediately removable.

Job card – Document used to record details about a specific repair or maintenance task to request a purchase order.

Job sheet – Document (spreadsheet) used to record bulk job cards (less than benchmark).

Hearing assistive (HAT) – Hearing and alerting equipment such as baby monitors, visual vibrating alerts (smoke detectors, doorbells), personal listening devices.

Modification – See EMS definitions.

MRES – Managed Rehabilitation Equipment Service. The ACC programme that funds ACC equipment.

MRSA – Methicillin-resistant Staphylococcus aureus (MRSA). A type of bug that has become resistant to some commonly-used antibiotics.

Portable Appliance Test (PAT) – Testing portable electrical appliances to find out if they meet set safety standards.

Repair – Process of fixing equipment that has stopped working, is damaged, broken or faulty.

Refurbishment – The process of restoring the equipment to ‘as new,’ or to a basic standard for reissue, after it has been used by and collected from a service user.

In Scope – DSS or ACC equipment, or activities, that subcontractors *are authorised* to work on.

Out Scope – DSS or ACC equipment, or activities, that subcontractors are *not authorised* to work on

Seating system –

Any item or combination of items designed to help a person sit or lie down comfortably. It aims to:

- Reduce physical discomfort
- Prevent worsening of posture
- Improve functional sitting positions

Service (maintenance) – Regular, proactive work done to keep equipment safe, in good working condition and prevent breakdown. Examples: Routine (annual) inspections, electrical safety checks (test & tag) replacing worn parts.

Service user – A person who is eligible for EMS and/or MRES equipment services for injured or disabled people.

Set-up – To help the assessor assemble the equipment for the person, within 6 weeks of issue.

Subcontractor – The same as 'Supplier' in any Contract for Goods and Services.

Technician request – The form EMS Assessors complete and provide to the subcontractor for the work required.

Trial equipment – Equipment given to a service user temporarily to test if it meets their needs and is suitable for them.

Visual assistive technology (VAT) – Equipment to help people with visual impairments. Examples: screen readers, magnifiers, braille displays, voice-activated devices, alerts.

Warranty – A guarantee provided by the supplier that promises the equipment will work as expected for a specified period. If the equipment fails due to defects in materials or workmanship during this period, the manufacturer or seller will repair or replace it at no additional cost to the buyer. May include new or factory-modified parts.

Write-off – Where an item or asset is removed from stock and financial records because it is no longer usable or repairable.

Appendix 10: Quick reference info

Prices and charges

Please see guidelines for full details.

	Charge	Plus	Notes
Parts	Cost (excl. GST)	12.5%	Max. \$150.00 per job (excl. GST)
Outwork	Cost (excl. GST)	12.5%	Max. \$150.00 per job (excl. GST)
Mileage	\$0.64 per km	n/a	Trips over 10km
Testing and tagging	\$15.00 per item (excl. GST)	n/a	Item = lead and charger body. Price includes labour and up to 2 tests per item.
